

## *I Love Story Time*

I love story time  
How I love story time  
As I sit there listening  
My mind is wandering  
I'm hoping there will be a happy ending

I love story time  
How I love story time  
Let the pictures tell the tale  
See a ship set out to sail  
I'm imaging a happy ending

Once upon a time... in the beginning  
In a land far far away  
I can tell the story by remembering  
In my own way.

I love story time  
How I love story time  
I see the princess on a horse and the prince is there of  
course  
Now the King and Queen are planning for a wedding!

I love story time  
How I love story time  
It's the happiness it brings  
That makes me want to sing  
When I'm imaging just how the sto-ry goes
