

I LIKE YOU WHEN

Child:

I like you when we share a meal with family.

Or when you read our fav'rite  to me.
I love you when we play a game together

Or when we sit and watch the  at night

I love you when, you hold me tight close to
your chest.

Or when you tell me that I am the best

I like it when you make me feel so special.

When you're with me, and all the  is still.

Parent:

I love to hear your lovely voice every day

I want to make you  when we play

I love to tell you that you have a shining smile,

And that to me, you're always in **1st** place.

I like it when I come , and I see your smile.

You're growing up, my darling little child.

I love to hold you close and say I  you.

I love to hear you say you  me too.
