

MEMORIES HELP US LEARN ALONG THE WAY

Song by Aimée Fischer

It's a special thing to remember

Memories are the markers of what happens
everyday

We need to memorize the important things in
life

Like how to , and how to 

The song my mommy sang last 

Memories help us learn along the way!

Sometimes things are hard to _____

But everything you learn, you can remember
if you try

Recite the ABC's, you can learn to tie your
shoes

Remember lessons in the 

Remember friends you met at 

Memories are always in my mind!

Special times are fun to _____

It makes me  when I think back to a special
day

Like a movie in my memory, I can see it all
before me

The birthday party with my friends

The  game that wouldn't end

When my grandma told a story yesterday!

Some things are important to _____

There are things we learn to keep us safe
along the way

If you find that you are lost, you will need to
recall

Your  number and your address

Your mommy's name - please, just don't
guess!

Remember these things each and every day!

It's a special thing to _____

Memories are the markers of what happens
everyday

We need to memorize the important things in life

Our memories help us learn along the way
