

The Five "W" Song

We all have questions floating through our minds
We all have questions that must be defined!
So many questions every day
So many questions to survey!

There's WHO, and WHAT, and also ask me WHEN
And WHERE, yes WHY, let's ask them all again.
That's WHO? And WHAT? Please can you tell me
WHEN?
And WHERE? And WHO? So much to
comprehend!

SPOKEN:

Who, What, When, Where, Why!

When--- we ask a question we will know!
When--- we ask a question we can grow!
We have so many questions everyday,
Should I ask them all? Of course you may

These words that ask our questions all begin with W

These words that ask our questions are the right
ones we should use!

Let's say them again, and learn them now, they're
simple you will see
Who What, When, Where, Why - are easy as can
be!

Let's say them again, and learn them now, they're
simple you will see
Who What, When, Where, Why - are easy as can
be!
